Every lecturer assigns consultation hours every week to discussing learning issues with students. Besides, every student is assigned a lecturer who acts as a personal tutor throughout his or her two-year studies at HKCC.

HKCC課程由PolyU　CPCE講師教授，他們在不同的專業範疇擁有豐富的行業及教學經驗，絕大部分講師的博士學位由全球百強大學頒授，更有教授名列全球首1%最頂尖的學者或首2%最頂尖的科學家。

講師每周均會定出諮詢時間協助同學解決學習問題。HKCC亦會為同學安排專責導師，以師友身分在兩年學習期間給予同學學業及個人成長方面的指導。

Programme Choices to Meet Students' Needs

課程切合同學專長及興趣

HKCC offers over 30 programmes spanning arts, science, social sciences, business and the specialised area of design, health studies, social work, and surveying and built environment . Most of HKCC's programmes are scheme-based. Students who do not want to decide which programme to choose in Year 1 can enrol of the programmes within a scheme. Then before Year 2, they can choose to continue with the programme or switch to another programme within the scheme^. This flexibility allows students to explore their interests and strengths before deciding on the programme that suits them best.

HKCC的30多項課程涵蓋文、理、社、商範疇，也有設計學、健康學、社會工作，以及測量及建築環境學專科。很多課程均以「組合課程」形式設計。同學可於第一年先選讀組合課程內其中一項課程，然後於第二年開始前，選擇繼續修讀該課程，或申請轉修組合課程內另一項課程^。此項靈活選科措施，可讓同學善用第一年時間探索興趣及長處，然後選擇最適合自己的課程，從而提高學習動力。

^ Depending on the subjects studied in Year 1, changing to another programme in Year 2 may entail taking some additional subjects in order to meet the academic requirements of individual programmes. Students who wish to change to language-related programmes will have to fulfil higher language subject requirements.

視乎第一年所修讀的科目，改選另一項課程可能須於第二年補修某些科目，方能符合課程的要求。另外，某些課程的語文科成績要求可能較高，同學必須符合有關要求，方可申請轉修。

Cheng Ho-kwan 鄭浩君
Graduate of Associate in Engineering 工程學副學士畢業生
Articulated into PolyU SPEED's Bachelor of Engineering (Honours) in Mechanical Engineering
升讀PolyU SPEED機械工程學（榮譽）工學士學位課程

Ho-kwan described his two years at PolyU HKCC as fulfilling and challenging.

"The curriculum progressed from basic foundational subjects, which gave me a comprehensive understanding of engineering, to advanced specialised subjects that deepened my mechanical engineering knowledge."

Through his studies, Ho-kwan confirmed his interest in mechanical engineering.

"Its applications span power supply, water services, manufacturing, and more—offering flexible and diverse career options."

Ho-kwan seamlessly articulated to the BEng (Hons) in Mechanical Engineering at PolyU SPEED through the "2+2" pathway.

"This pathway helped me build a solid academic foundation at PolyU HKCC, making it easier to handle degree-level studies. I will be able to obtain my bachelor's degree in the same four-year period, comparable to progressing through JUPAS to a publicly funded local university."

浩君以充實且具挑戰性形容在PolyU HKCC兩年的學習生涯，「課程由淺入深，前期的基礎科目讓我對工程學有全面的認知，後期的專業科目則讓我對機械工程有更深入的認識。」他在學習過程中確立專攻機械工程的志向。「機械工程的應用範圍廣泛，涵蓋供電、水務及製造等多個領域，未來職業選擇靈活且多元。」

浩君循「2+2」模式無縫接軌，升讀PolyU SPEED機械工程學（榮譽）工學士學位課程。「這個升學模式讓我先在PolyU HKCC打穩學術基礎，修讀學位課程時更得心應手。我同樣可以四年時間取得學士學位，跟循JUPAS升讀本地資助大學沒有太大差異。」

Pang Wai-kwan 彭煒君
Graduate of Associate in Translation and Interpretation 翻譯及傳譯副學士畢業生
Articulated into CUHK's Bachelor of Arts in Translation
升讀香港中文大學翻譯文學士學位課程

Wai-kwan previously studied engineering and worked in the disciplined services for several years, but he never gave up on his dream of studying translation at CUHK. Two years ago, he made a bold decision to resign and enrol in the Associate in Translation and Interpretation at PolyU HKCC.

Besides core translation subjects, he said the College offered diverse electives like economics and Japanese. "These subjects, though not directly related to translation, gave me more room to excel. I chose subjects I was good at to boost my grades and improve my chances of university admission."

During his studies, Wai-kwan attended many seminars that deepened his understanding of translation. One seminar focused on the role of translation in the AI era.

"People say AI might replace translators, but the seminar taught me how to find a niche amid AI disruption. Guest speakers also emphasised that legal documents are highly confidential and cannot be casually handled by AI—legal translation still requires human expertise."

煒君曾修讀工程本科，畢業後投身紀律部隊多年，但一直未忘升讀中大翻譯系的夢想。兩年前，他毅然辭掉工作，報讀PolyU HKCC的翻譯及傳譯副學士課程。

他表示，除翻譯學核心科目外，學院還提供多元化的選修科，例如經濟學及日語等。「這些與翻譯無直接關係的科目，反而讓我有更多發揮空間。我選擇擅長的科目，提升成績，增加升學優勢。」

在學期間，煒君參加不少講座，令他對翻譯學的理解更為透徹，其中一場講座聚焦於AI時代翻譯的定位問題。「大家都說AI可能會取代翻譯專業，但從講座中我理解到如何在AI的衝擊下找到生存空間；嘉賓講者又提醒我們法律文件的機密性極高，不能隨意交由AI處理，法律翻譯依然需要依靠人手，難以被AI取代。」

WONG Sui-shan 黃瑞山
Graduate of Associate in Business (Hospitality Management) 工商業副學士（酒店管理）畢業生
Articulated into PolyU's Bachelor of Science (Honours) in Hotel Management
升讀香港理工大學酒店管理理學士學位課程

Since secondary school, Sui-shan has been passionate about the hotel and tourism industry. After completing the DSE, he chose to study an associate degree at PolyU HKCC with the goal of articulating to the Hotel Management programme at PolyU. During his studies, Sui-shan served as a student representative, acting as a bridge between students and faculty.

"I really enjoyed serving my fellow students. It not only helped them access important information from the College, but also improved my communication and coordination skills." He also interned at Rosewood Hong Kong for three months.

"This internship helped me understand the actual operations of the hotel industry and experience its charm. I truly enjoyed interacting with and serving guests, which further confirmed my passion for hospitality."

After the internship, Sui-shan was hired as a part-time staff member at the hotel, continuing to gain work experience and prepare for a future career in the industry.

"My learning experience at PolyU HKCC taught me that 'all roads lead to Rome'—as long as you work hard, you'll find a way to achieve your goals."

瑞山自中學起對酒店及旅遊業充滿興趣，DSE後選擇在PolyU HKCC修讀副學士，希望銜接升學，實現升讀理大酒店管理課程的目標。在學期間，他擔任學生代表，充當師生之間的橋樑。「我很享受服務同學的過程，不但能幫助大家獲取校方的重要資訊，也有助提升自己的溝通及協調能力。」

另外，他又在香港瑰麗酒店實習了三個月。「這次實習有助我熟悉酒店業的實際運作，同時體會此行業的魅力。我很享受與遊客交流及服務的過程，更確定了自己對酒店業的熱愛。」實習結束後，瑞山獲酒店聘用為兼職員工，繼續累積工作經驗，為日後投身業界作準備。

「PolyU HKCC的學習經歷讓我明白『條條大路通羅馬』的道理，只要努力，總能找到達成目標的方法。」
